They included Eastward to Tartary: Travels in the Balkans, the Middle East, and the Caucasus and Balkan Ghosts: A Journey Through History.. Robert D. Kaplan

From the assassination that triggered World War I to the ethnic warfare in Serbia, Bosnia, and Croatia, the Balkans have been the crucible of the twentieth century, the place where terrorism and genocide first became tools of policy. Chosen as one of the Best Books of the Year by The New York Times, and greeted with critical acclaim as "the most insightful and timely work on the Balkans to date" (The Boston Globe), Kaplan's prescient, enthralling, and often chilling political travelogue is already a modern classic. This new edition of Balkan Ghosts includes six opinion pieces written by Robert Kaplan about the Balkans between 1996 and 2000 beginning just after the implementation of the Dayton Peace Accords and ending after the conclusion of the Kosovo war, with the removal of Slobodan Milosevic from power.

Eastward to Tartary, Robert Kaplan's first book to focus on a single region since his bestselling Balkan Ghosts, introduces readers to an explosive and little-known part of the world destined to become a tinderbox of the future. Kaplan takes us on a spellbinding journey into the heart of a volatile region, stretching from Hungary and Romania to the far shores of the oil-rich Caspian Sea. Through dramatic stories of unforgettable characters, Kaplan illuminates the tragic history of this unstable area that he describes as the new fault line between East and West. He ventures from Turkey, Syria, and Israel to the turbulent countries of the Caucasus, from the newly rich city of Baku to the deserts of Turkmenistan and the killing fields of Armenia. The result is must reading for anyone concerned about the state of our world in the decades to come.

"A history of Romania traces the author's intellectual development throughout his extensive visits to the country, sharing his observations about its reflection of European politics, geography and key events while exploring the indelible role of Vladimir Putin."--NoveList.

On the world maps common in America, the Western Hemisphere lies front and center, while the Indian Ocean region all but disappears. This convention reveals the geopolitical focus of the now-departed twentieth century, but in the twenty-first century that focus will fundamentally change. In this pivotal examination of the countries known as "Monsoon Asia"—which include India, Pakistan, China, Indonesia, Burma, Oman, Sri Lanka, Bangladesh, and Tanzania—bestselling author Robert D. Kaplan shows how crucial this dynamic area has become to American power. It is here that the fight for democracy, energy independence, and religious freedom will be lost or won, and it is here that American foreign policy must concentrate if the United States is to remain relevant in an ever-changing world. From the Horn of Africa to the Indonesian archipelago and beyond, Kaplan exposes the effects of population growth, climate change, and extremist politics on this unstable region, demonstrating why Americans can no longer afford to ignore this important area of the world.

NEW YORK TIMES BESTSELLER • In this provocative, startling book, Robert D. Kaplan, the bestselling author of Monsoon and Balkan Ghosts, offers a revelatory new prism through which to view global upheavals and to understand what lies ahead for continents and countries around the world. Bestselling author Robert D. Kaplan builds on the insights, discoveries, and theories of great geographers and geopolitical thinkers of the recent and

distant past to look back at critical pivots in history and then to look forward at the evolving global scene. Kaplan traces the history of the world's hot spots by examining their climates, topographies, and proximities to other embattled lands. He then applies the lessons learned to the present crises in Europe, Russia, China, the Indian Subcontinent, Turkey, Iran, and the Arab Middle East. The result is a holistic interpretation of the next cycle of conflict throughout Eurasia, a visionary glimpse into a future that can be understood only in the context of temperature, land allotment, and other physical certainties. A brilliant rebuttal to thinkers who suggest that globalism will trump geography, this indispensable work shows how timeless truths and natural facts can help prevent this century's looming cataclysms. Praise for *The Revenge of Geography* “[An] ambitious and challenging new book . . . [The Revenge of Geography] displays a formidable grasp of contemporary world politics and serves as a powerful reminder that it has been the planet's geophysical configurations, as much as the flow of competing religions and ideologies, that have shaped human conflicts, past and present.”—Malise Ruthven, *The New York Review of Books* “Robert D. Kaplan, the world-traveling reporter and intellectual whose fourteen books constitute a bedrock of penetrating exposition and analysis on the post-Cold War world . . . strips away much of the cant that suffuses public discourse these days on global developments and gets to a fundamental reality: that geography remains today, as it has been throughout history, one of the most powerful drivers of world events.”—*The National Interest* “Kaplan plunges into a planetary review that is often thrilling in its sheer scale . . . encyclopedic.”—*The New Yorker* “[The Revenge of Geography] serves the facts straight up. . . . Kaplan's realism and willingness to face hard facts make *The Revenge of Geography* a valuable antidote to the feel-good manifestoes that often masquerade as strategic thought.”—*The Daily Beast*

Hailed as among the most important books of the twentieth century, Rebecca West's magnum opus is a history, a travelogue, and a sociological study of Yugoslavia that examines how the past shapes the present In a breathtakingly wide-ranging journalistic work, West richly chronicles her travels throughout Yugoslavia in the 1930s, introducing vivid characters and illuminating details. More than a travelogue, *Black Lamb and Grey Falcon* connects the people and places West encounters to the long history of conflict that has formed national identities in the Balkans across a millennium of shifting alliances. West writes, “I had come to Yugoslavia because I knew that the past has made the present, and I wanted to see how the process works.” As profound, sad, and funny as when it was first published in 1941, *Black Lamb and Grey Falcon* interrogates the forces that continue to shape our modern world.

Author of *Balkan Ghosts*, Robert D. Kaplan now travels from West Africa to Southeast Asia to report on a world of disintegrating nation-states, warring nationalities, metastasizing populations, and dwindling resources. He emerges with a gritty tour de force of travel writing and political journalism. Whether he is walking through a shantytown in the Ivory Coast or a death camp in Cambodia, talking with refugees, border guards, or Iranian revolutionaries, Kaplan travels under the most arduous conditions and purveys the most startling truths. Intimate and intrepid, erudite and visceral, *The Ends of the Earth* is an unflinching look at the places and peoples that will make tomorrow's headlines--and the history of the next millennium. "Kaplan is an American master of...travel writing from hell...Pertinent and compelling."--*New York Times Book Review* "An impressive work. Most travel books seem trivial beside it."--*Washington Post Book World*
