The Business Services Series are a set of 7 workbooks addressing individual management competencies from the Business Services Training Package. Written by experienced TAFE teacher-authors, each workbook provides comprehensive coverage of one management module and is perfect for teachers tailoring courses to the national package. Easily a standalone product, each workbook is content-rich, with ample theory to complement the timed activities, skill-checklists and real-life Australian case-studies.

This unit describes the skills and knowledge required to identify networking and collaboration needs and develop formal and informal partnerships to enhance service delivery and improve professional practice. This unit applies to work in all industry sectors, and to individuals who take pro-active responsibility for improving collaboration between workers and organisations.

Guidance for the development of the set of requirements, System Requirements Specification (SyRS), that will satisfy an expressed need is provided. Developing a SyRS includes the identification, organization, presentation, and modification of the requirements. Also addressed are the conditions for incorporating operational concept, design constraints, and design configuration requirements into the specification. This guide also covers the necessary characteristics and qualities of individual requirements and the set of all requirements.
