Classics explores key writings that have shaped the discipline and had an impact on the real world. Philosophy can no longer be confined to academia, and 50 Philosophy Classics shows how powerful it can be as a tool for opening our minds and helping us think. Whether you are fascinated or daunted by the big questions of how to think, how to be, how to act and how to see, this is the perfect introduction to some of humanity's greatest minds and their landmark books.

This book is an introduction in the very best sense of the word. It provides the beginner with an accurate, sophisticated, yet accessible account, and offers new insights and challenging perspectives to those who have more specialized knowledge. Focusing on the period in Chinese philosophy that is surely most easily

approachable and perhaps is most important, it ranges over of rich set of competing options. It also, with admirable self-consciousness, presents a number of daring attempts to relate those options to philosophical figures and movements from the West. I recommend it very highly. --Lee H. Yearley, Walter Y. Evans-Wentz Professor, Religious Studies, Stanford University --- A substantial and highly accessible introduction to the indigenous philosophies of China. Van Norden shares his clear distillations of classical Chinese philosophies using conceptual frameworks many will find familiar. This reader-friendly book sets the historical and cultural contexts for the philosophies discussed, and includes appendices, study questions, and imaginative scenarios, which aid us in appreciating some of the most important philosophy ever developed. --Ann Pirruccello, Professor of Philosophy, University of San Diego ---

This lucid introduction to early Chinese thought offers historical, textual and conceptual analyses of the schools of Classical Chinese philosophy, illuminating their basic themes, theories, and arguments and providing readers with an intellectual bridge between Chinese and Western thought. Introductory texts such as this are especially needed today, as the study of philosophy faces the challenges of globalization and the urgent need for dialogue among different philosophical traditions. --- An ideal text for introductory courses, this book will also inspire graduate students, scholars and experts in philosophy in general, and Chinese Philosophy in particular, with its theoretical insights and comparative methodology. --Vincent Shen, Lee Chair in Chinese Thought and Culture, Departments of Philosophy and East Asian Studies, University of Toronto

prove that no person ever acts freely. After a critical examination of the history of the problem, from Aristotle through Stoic and medieval thought, Cahn analyzes contemporary discussions of the issue, revealing how a belief in free will is logically connected to specific assumptions about the truth-value of propositions and the nature of time.

Nicomachean Ethics Aristotle - The Nicomachean Ethics is one of Aristotle's most widely read and influential works. Ideas central to ethics—that happiness is the end of human endeavor, that moral virtue is formed through action and habituation, and that good action requires prudence—found their most powerful proponent in the person medieval scholars simply called "the Philosopher."

Drawing on their intimate knowledge of Aristotle's thought, Robert

8th Edition

C. Bartlett and Susan D. Collins have produced here an English-language translation of the *Ethics* that is as remarkably faithful to the original as it is graceful in its rendering. Aristotle is well known for the precision with which he chooses his words, and in this elegant translation his work has found its ideal match. Bartlett and Collins provide copious notes and a glossary providing context and further explanation for students, as well as an introduction and a substantial interpretive essay that sketch central arguments of the work and the seminal place of Aristotle's *Ethics* in his political philosophy as a whole. The *Nicomachean Ethics* has engaged the serious interest of readers across centuries and civilizations—of peoples ancient, medieval, and modern; pagan, Christian, Muslim, and Jewish—and this new edition will take its place as the standard English-language translation.

The Twelfth Edition of this best-selling, topically organized anthology provides a superb balance of historical selections and recent material. This new edition features more readings than ever before--79 total--all, where necessary, in the finest translations available. The readings complement each other and naturally build on the topic being covered. Clear, concise introductions to each Part provide just enough guidance to let students learn from experiencing the readings themselves. The text's long-heralded selection of readings covers topics such as reason and religious belief, human knowledge, mind and its place in nature, determinism, free will and responsibility, and morality and its critics in five parts with careful attention to opposing points of view.

8th Edition

The Apology of Socrates was written by Plato. In fact, it's a defensive speech of Socrates that he said in a court noted down by Plato. The main subject of the speech is a problem of the evil. Socrates insists that neither death nor death sentence is evil. We shouldn't be afraid of the death because we don't know anything about it. Socrates proved that the death shouldn't be taken as the evil with the following dilemma: the death is either a peace or a transit from this life to the next. Both can't be called evil. Consequently, the death shouldn't be treated as evil.

What does pleasure have to do with morality? What role, if any, should intuition have in the formation of moral theory? If something is 'simulated', can it be immoral? This accessible and wide-ranging

textbook explores these questions and many more. Key ideas in the fields of normative ethics, metaethics and applied ethics are explained rigorously and systematically, with a vivid writing style that enlivens the topics with energy and wit. Individual theories are discussed in detail in the first part of the book, before these positions are applied to a wide range of contemporary situations including business ethics, sexual ethics, and the acceptability of eating animals. A wealth of real-life examples, set out with depth and care, illuminate the complexities of different ethical approaches while conveying their modern-day relevance. This concise and highly engaging resource is tailored to the Ethics components of AQA Philosophy and OCR Religious Studies, with a clear and practical layout that includes end-of-chapter summaries, key terms, and common mistakes to avoid. It should also be of practical use for
