Presario is a discontinued series of desktop computers and notebooks from Compaq. The Presario family of computers was launched for the consumer marketplace in September 1993. In the mid-1990s, Compaq began manufacturing PC monitors as part of the Presario

brand. A series of all-in one units, containing both the PC and the monitor in the same case, were also released.

Singapore's leading tech magazine gives its readers the power to decide with its informative articles and in-depth reviews.

A practical guide to the maintenance and repair of laptop computers, including three hundred repair cases and thirteen diagnostic flowcharts.

Using a notebook PC is different from using a desktop PC. Not only are the keyboard and screen smaller, you have to deal with battery life, notebook security, connecting to the Internet at Wi-Fi hot spots, and figuring out how to enter numbers without a numeric keypad. How do you do what you need to do on your new notebook PC? *Your First Notebook PC* is the solution to your problems. This book focuses on how to shop for, set up, and use a new notebook PC. You ' ll learn all about different types of notebooks, unique notebook features, and useful notebook accessories. You ' ll also discover how to get the most out of your notebook at home, at the office, and on the road—and how to troubleshoot any problems you might encounter! *Your First Notebook PC* shows you how to:

- Choose the right type of notebook for your needs
- Set up and configure a new notebook
- Use Windows Vista and its notebook-specific features
- Connect your notebook to a wireless home network and the Internet
- Share files and folders with other users—and sync your files between two PCs
- Use your notebook to listen to music and play DVD movies
- Connect your notebook to an office network—and use it for essential business operations
- Use your notebook to give PowerPoint presentations
- Connect your notebook to a public Wi-Fi hot spot—and send and receive email from any location
- Keep your notebook secure when traveling
- Extend the life of your notebook ' s battery
- Upgrade your notebook ' s hardware
- Troubleshoot common problems

This timely review volume summarizes the state-of-the-art developments in nature-inspired algorithms and applications with the emphasis on swarm intelligence and bio-inspired computation. Topics include the analysis and overview of swarm intelligence and evolutionary computation, hybrid metaheuristic algorithms, bat algorithm, discrete cuckoo search, firefly algorithm, particle swarm optimization, and harmony search as well as convergent hybridization. Application case studies have focused on the dehydration of fruits and vegetables by the firefly algorithm and goal programming, feature selection by the binary flower pollination algorithm, job shop scheduling, single row facility layout optimization, training of feed-forward neural networks, damage and stiffness identification, synthesis of cross-ambiguity functions by the bat algorithm, web document clustering, truss analysis, water distribution networks, sustainable building designs and others. As a timely review, this book can serve as an ideal reference for graduates, lecturers, engineers and researchers in computer science, evolutionary computing, artificial intelligence, machine learning, computational intelligence, data mining, engineering optimization and designs.

A physicist uses science and philosophy to answer the ancient, unsolvable question: why does the universe exist?

YOU CAN'T MAKE THIS STUFF UP! Here is a hilarious collection that catches real-life knuckleheads in outrageous acts of brazen stupidity, giving new meaning to that famous four-

letter word: "DUH"! * The Oregon resident who was waxing his 1984 Pontiac--and somehow managed to shove the antenna up his nose . . . GRANDMOTHER OF EIGHT MAKES HOLE IN ONE * The Atlanta Braves pitcher who was treated for five-inch-long welts after he tried to iron his polo shirt while wearing it . . . MINERS REFUSE TO WORK AFTER DEATH * The inmate at a Chesapeake Correctional Facility who filed a five million dollar lawsuit against himself . . . DRUNK GETS NINE MONTHS IN VIOLIN CASE * The woman who couldn't stand the discomfort of having a callus on her right foot, so she blew off her big toe with a shotgun . . . Radio personality John "Kato" Machay's lively compilation of news stories, headlines, and courtroom gaffes proves hands down that truth is dumber than fiction! REMEMBER: To err may be human, but to laugh out loud is divine.

This work has been selected by scholars as being culturally important, and is part of the knowledge base of civilization as we know it. This work was reproduced from the original artifact, and remains as true to the original work as possible. This new edition of How People Tick is a practical guide to over 50 types of difficult people such as Angry People, Blamers, Impatient People, Workaholics and Gossips. Each difficult situation is described, how it happens is analysed, and then strategies to help you deal with the problem are suggested. Disruptive behaviour patterns can be addressed once and for all, instead of having to handle one-off 'difficult' events, time and time again. Absolutely invaluable to everybody, How People Tick is full of tried and tested tips for handling 'difficult' people in 'difficult' situations, based on a real understanding of their behaviour. It is an essential read if you find people bewildering or just plain difficult, and yet still want to understand them, work with them and live with them.

This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it.
