Accounting or accountancy is the measurement, processing, and communication of financial and non financial information about economic entities such as businesses and corporations.Accounting, which has been called the "language of business", measures the results of an organization's economic activities and conveys this information to a variety of users, including investors, creditors ...

Accounting - Wikipedia
Financial accounting is required to follow the accrual basis of accounting (as opposed to the "cash basis" of accounting). Under the accrual basis, revenues are reported when they are earned, not when the money is received. Similarly, expenses are reported when they are incurred, not when they are paid.
