Compatible with line volt heating only (240V) including electric baseboard heat, convectors, radiant ceilings (2-wire) and fan-forced heaters. The Honeywell RLV3150A1004 Digital Non-Programmable Thermostat is the perfect addition to your electric baseboard heating system. A compact design and an incredibly easy installation process make this a versatile unit that can go well with any room.

The Instrument and Automation Engineers' Handbook (IAEH) is the #1 process automation handbook in the world. Volume one of the Fifth Edition, Measurement and Safety, covers safety sensors and the detectors of physical properties. Measurement and Safety is an invaluable resource that: Describes the detectors used in the measurement of process variables Offers application- and method-specific guidance for choosing the best measurement device Provides tables of detector capabilities and other practical information at a glance Contains detailed descriptions of domestic and overseas products, their features, capabilities, and suppliers, including suppliers' web addresses Complete with 163 alphabetized chapters and a thorough index for quick access to specific information, Measurement and Safety is a must-have reference for instrument and automation engineers working in the chemical, oil/gas, pharmaceutical, pollution, energy, plastics, paper, wastewater, food, etc. industries. About the eBook The most important new feature of the IAEH, Fifth Edition is its availability as an eBook. The eBook provides the same content as the print edition, with the addition of thousands of web addresses so that readers can reach suppliers or reference books and articles on the hundreds of topics covered in the handbook. This feature includes a complete bidders' list that allows readers to issue their specifications for competitive bids from any or all potential product suppliers.

Want to know where you can buy \$100 iTunes gift cards for \$85? Did you know you can pay your taxes by using a cash-back credit card? Why are you still paying \$235 a year to rent your cable box? You're leaving money on the table every day, with every transaction you make: changing your oil, withdrawing ATM cash, booking flights, buying insurance, shopping for clothes, squirting toothpaste. But in Pogue's Basics: Money, the third book of this New York Times bestselling series, David Pogue proves that information is money. Each of his 150 simple tips and tricks includes a ballpark estimate of the money you could make or save. Okay, you won't use every tip in the book-but if you did, you'd come ahead by \$61,195 a year.

Interest in sustainable, green building practices is greater than ever. Whether concerned about allergies, energy costs, old-growth forests, or durability and long-term value, homeowners and builders are looking for ways to ensure that their homes are healthy, safe, beautiful and efficient. In these pages are descriptions and manufacturer contact information for more than 1,400 environmentally preferable products and materials. All phases of residential construction, from sitework to flooring to renewable energy, are covered. Products are grouped by function, and each chapter begins with a discussion of key environmental considerations, and what to look for in a green product. Over 40% revised, this updated edition includes over 120 new products. Categories of products include: Sitework and landscaping Outdoor structures Decking Foundations, footers and slabs Structural systems and components Sheathing Exterior finish and trim Roofing Doors and windows Insulation Flooring and floor coverings Interior finish and trim Caulks and adhesives Paints and coatings Mechanical systems/HVAC Plumbing, electrical and lighting Appliances Furniture and furnishings Renewable energy Distributors and retailers An index of products and manufacturers makes for easy navigation. There is no more comprehensive resource for both the engaged homeowner and those who design and build homes.

Popular Science gives our readers the information and tools to improve their technology and their world. The core belief that Popular Science and our readers share: The future is going to be better, and science and technology are the driving forces that will help make it better.

This unique A-Z guide to central heating wiring systems provides a comprehensive reference manual for hundreds of items of heating and control equipment, making it an indispensable handbook for electricians and installers across the country. The book provides comprehensive coverage of wiring and technical specifications, and now includes increased coverage of combination boilers, recently developed control features and SEDBUK (Seasonal Efficiency of Domestic Boilers in the UK) boilers ratings, where known. In addition to providing concise details of nearly 500 different boilers fuelled by electric, gas, oil and solid fuel, and over 400 programmers and time switches, this invaluable resource also features numerous easy-to-understand wiring diagrams with notes on all definitive systems. Brief component descriptions are provided, along with updated contact and website details for most major manufacturers. Ray Ward has spent over 20 years as a specialist in the field of wiring domestic central heating systems and the knowledge he has gained from hands-on experience and staff training is now brought together in this comprehensive handbook.

This book analyses and provides an insight to Singapore's planning system and practices associated with sustainable development. It takes a reflective approach in reviewing the direction, impact and significance of sustainable development in Singapore planning and the future challenges facing the city-state, which is often looked upon by many developing countries as a model.

For 10 years Jeff Howell has been answering readers' queries about property through his very popular 'Ask Jeff' column in the Sunday Telegraph. This book, in user-friendly Question and Answer format, addresses all the issues every home owner needs to know. Packed with expert tips, Jeff Howell offers comprehensive and authoritative advice on everything from boilers and builders, to central heating, condensation, damp proofing, dry rot, plumbing and woodworm. Using readers' stories as case histories, this authoritative book is the key to understanding how to maintain your home properly. How do you decide what needs doing and when? How do you find a decent builder? How do you judge if the work has been done to the right standard? All the answers and more are here in this clearly presented, accessible and practical book. For all the latest information visit Jeff Howell's website: www.askjeff.co.uk
