Once you feel compression building, look for the zero mark on the harmonic balancer to approach the timing tag. We prefer to set the initial timing for most engines at 10 degrees Before Top Dead Center (BTDC). With that set, remove the cap from the distributor. We ' re using a Summit HEI distributor. We use a black Sharpie to place a mark on the distributor body where we want the Number One spark plug wire to be located.

How to set your ignition timing - YouTube

The gap is now set and you can check the timing. Checking the timing: It is necessary to check the timing of the motor because the points must separate exactly at the BTDC point or the engine will run badly. To do this there are two methods: Statically with use of a small testing circuit or dynamically with a strobe light.

Scooter Help - Points Timing

Bryan, Another way of setting the timing is to use a vacuum gauge attached to the intake manifold [windshield wiper port is good]. Be certain that you have the points set dead on; loosen the distributor; at normal engine idle, turn the distributor until you get a maximim vacuum reading; back off the distributor to loose 1 inch of vacuum and tighten down the distributor.

1932 PA: how to set timing?

Timing specs vary, but a good rule of thumb is to set the timing at 12 degrees advance once the engine has started up for the first time. Use a timing light with vacuum advance disconnected. See...
