I AND THOU is one of the most important books of Western Theology. In it, Martin Buber, heavily

Martin Buber's I and Thou argues that humans engage with the world in two ways. One is with the attitude of an 'I' towards an 'It', where the self stands apart from objects as items of

experience or use. The other is with the attitude of an 'I' towards a 'Thou', where the self enters into real relation with other people, or nature, or God.

Addressing modern technological society, Buber

claims that while the 'I-It' attitude is necessary for existence, human life finds its meaning in personal relationships of the 'I-Thou' sort. I and Thou is Buber's masterpiece, the basis of his religious

Martin Buber's classic philosophy of dialogue, I

authority on the twentieth-century philosopher Martin Buber (1878-1965), Paul Mendes-Flohr offers the first major biography in English in thirty years of this seminal modern Jewish thinker. The book is

organized around several key moments, such as his sudden abandonment by his mother when he was a child of three, a foundational trauma that, Mendes-Flohr shows, left an enduring mark on Buber's inner life, attuning

him to the fragility of human relations and the need to nurture them with what he would call a "dialogical attentiveness." Buber's philosophical and theological writings, most famously I and Thou, made

The I-Thou controversy between Heidegger and Buber is a significant but often

overlooked issue in philosophy and theology. In one of the first books to truly address the subject, Haim Gordon explores the arguments of both Martin Heidegger and Martin Buber regarding the I-Thou

significance for human  
existence. After examining  
the fundamental ontology of  
Heidegger, set beside the  
ontological insights of  
Buber concerning this  
relationship, Gordon
