`emacs --daemon`. It mentions on the bottom of page 37 that if I go the server route I cannot use the traditional emacs binary or whatever. Does this include the `emacs --daemon`?

Anyone bought the "Mastering Emacs E-book"? : emacs

By default Emacs will

Access Free Mastering

distinguish between upper and lowercase alphabet when determining sort order, and this behavior is governed by the variable `sort-fold-case`. Set it to `t` to force Emacs to ignore case differences when sorting. **Sorting Order.** Emacs will by default use lexicographic sorting

Access Free Mastering

for all but the sort-numeric-fields command. Make sure you use the right command for the job if you want to sort numbers.

Sorting Text by Line, Field and Regexp ... - Mastering Emacs
We expect that Emacs users are not affected by this, as

Access Free Mastering

SGI stopped supporting IRIX in December 2013. If you are affected, please send a bug report. You should be able to work around the problem either by porting the Emacs undumping code to GCC under IRIX, or by configuring `--with-wide-int`, or by sticking with Emacs

and Color Emoji -

Mastering Emacs

Mastering Emacs is the first tech book in a long time I've read cover-to-cover, taking notes and making bookmarks as I've went. I've referred back to it many times in trying to get more helpful commands in my daily workflow. I

Access Free Mastering

gleaned a lot and –
ironically – the
biggest point
Petersen makes is
that Emacs is self-
documenting.
