Background:

Scientists can only expect to communicate effectively if they are using a common "language". While the actual language changes from country to country, the one thing that remains fairly constant is the language of the metric system.

~~Lab Answer Key~~

The basic unit of length in the metric system is the meter(m). Common derived units used in the laboratory are the centimeter-(cm) (10⁻² or 1/100 of a meter) and the millimeter(mm) (10⁻³ or 1/1000 of a meter). For measuring large
