At twenty-three, William Simon Baekeland was well on his way to becoming the world's best traveled person. The "billionaire" heir to a great plastics fortune had already visited 163 countries, but his real passion was finding ways to visit the world's most challenging destinations—war torn cities, disputed territories, and remote or officially off-limits islands at the margins of the map. He earned rock-star status in the world of extreme travel by finding ingenious ways to bring the world's most widely traveled people to difficult-to-reach and forbidden places. But when his story began to unravel, an eccentric group of hyper-well-traveled country collectors were left wondering how they had allowed their obsession to blind them to the warning signs that William Baekeland wasn't who they thought he was. *Mad Travelers: A Tale of Wanderlust, Greed and the Quest to Reach the Ends of the Earth* delves deep inside the subculture of country collecting, taking readers to danger zones like Mogadishu and geographical oddities like Norway's nearly impossible-to-reach Bouvet Island. Along the way, this raucous tale of adventure and international intrigue illuminates the perils and pleasures of wanderlust while examining a fundamental question: why are some people compelled to travel, while others are content to stay home? *Mad Travelers* is a perceptive and at times hilarious account of how the pursuit of everywhere put the world's greatest travelers at the mercy of a brilliant young con man. Soon to be an HBO documentary.

Spanning 15 years of travel, beginning when she is a sophomore in college, *Wanderlust* documents Elisabeth Eaves's insatiable hunger for the rush of the unfamiliar and

the experience of encountering new people and cultures. Young and independent, she crisscrosses five continents and chases the exotic, both in culture and in romance. In the jungles of Papua New Guinea, she loses herself—literally—to an Australian tour guide; in Cairo, she reconnects with her high school sweetheart, only to discover the beginning of a pattern that will characterize her life over the long-term: while long-distance relationships work well for her, traditional relationships do not. Wanderlust, however, is more than a chronological conquest of men and countries: at its core, it's a journey of self-discovery. In the course of her travels, Eaves finds herself and the sense of home she's been lacking since childhood—and she sheds light on a growing culture of young women who have the freedom and inclination to define their own, increasingly global, lifestyles, unfettered by traditional roles and conventions of past generations of women.

THE NEW YORK OBSERVER: ONE OF THE TOP 10 BOOKS FOR FALL It's no wonder that New York has always been a magnet city for writers. Manhattan is one of the most walkable cities in the world. While many novelists, poets, and essayists have enjoyed long walks in New York, not all of them have had favorable impressions. Addressing an endlessly appealing subject, *Walking New York* is a study of twelve American writers and several British writers who walked the streets of New York and wrote about their impressions of the city in fiction, nonfiction, and poetry. Seen through the eyes of Walt Whitman, Herman Melville, William Dean Howells, Jacob Riis, Henry James, Stephen Crane, Theodore Dreiser, James Weldon Johnson, Alfred Kazin, Elizabeth Hardwick, Colson Whitehead, and Teju Cole, almost all the works in *Walking New York* are about Manhattan, with only Whitman and Kazin writing about Brooklyn. Though the writers were often irritated, disturbed, and occasionally shocked by what they saw on their walks, they were still fascinated by the city William Dean Howells called "splendidly and sordidly commercial" and Cynthia Ozick called "faithfully inconstant, magnetic, man-made, unnatural—the synthetic sublime." In this idiosyncratic guidebook to New York, celebrated writers ruminate on questions that are still hotly debated to this day: the pros and cons of capitalism and the impact of immigration. Many imply

that New York is a bewildering text that is hard to make sense of. Returning to New York after an absence of two decades, Henry James loathed many things about “bristling” New York, while native New Yorker Walt Whitman both celebrated and criticized “Mannahatta” in his writings. Combining literary scholarship with urban studies, *Walking New York* reveals how this crowded, dirty, noisy, and sometimes ugly city gave these “restless analysts” plenty of fodder for their craft.

You might be home-bound but now's the perfect time to write out your travel goals or bucket list. Maybe you'd like to visit the maid cafes of Tokyo or buy a fresh baguette from Paris? Jot it down here so you can hit the ground running once all this is over. Or perhaps you'd like to write down your previous adventures, notes for the next great travel adventure novel! Did you hike up a mountain in Canada on a fresh autumn morning? Or maybe you spent the day getting lost in New York but found the most amazing bagels at a small stand? A plain, 110 page lined diary with a beautifully minimalist design on the front of the moon and mountains.
