Verses on how the ones we love are always with us.

This homage to rock collecting, assembled by "rock artist" Linda Kranz, celebrates rocks in all their variety, shapes, and colors. Some even resemble pieces of modern art. Others offer a glimpse into the natural beauty that surrounds us. There are rocks that are rough to the touch, and others that are as smooth as glass. There are rocks inside rocks. You can even find rocks that are shaped like a heart. There are even rocks that cling to a magnet! This book will explain how to start a rock collection, and what you might do with them, such as identifying what kind of rocks they are or even painting on them or creating scenes with their shapes. The book also advises you where NOT to collect rocks, such as certain parks and natural areas. Regardless, this book will inspire the rock hound in all of us.

Hike a trail, climb a tree! Smell the flowers, watch the birds! Explore the world! Nature is full of adventures, but sometimes it's easy to forget things you felt or saw. What did those animal tracks look like? How did you feel when you gazed at the starry sky on a calm, clear night? My Nature Book is the perfect place for a child to keep track of all of his or her memories. It's a place to draw and write about your experiences with nature, so you'll remember the sound of the squirrel you heard chattering, the color of the bird that landed on your lunch sack, or the way the meadow grasses waved goodbye. My Nature Book is also full of projects and ideas, such as how to make water windows and luminarias, and even how to make yummy peanut butter cookies or banana bread or muffins to take along on hiking trips. There are also lined pages for writing, blank pages for drawing, and numerous activity pages.

Expertly written to include all kinds of children and families, this reassuring book embraces the beauty in a range of physical types, personalities, and abilities. Kids will love discovering and recognizing themselves in these pages and they'll feel proud to see their special qualities acknowledged. Full color.

Linda Kranz returns to "rock art" with this delightful story of friendship and inclusiveness.
