The dispute will be decided by one or more persons (the 'arbitrators', 'arbiters' or 'arbitral tribunal'), which renders the 'arbitration award'. An arbitration award is legally binding on both sides and enforceable in the courts. Arbitration is often used for the resolution of commercial disputes, particularly in the context of international commercial transactions.

Philippines v. China (PCA case number 2013 – 19), also known as the South China Sea Arbitration, was an arbitration case brought by the Republic of the Philippines against the People's Republic of China under Annex VII to the United Nations Convention on the Law of the Sea (UNCLOS) concerning certain issues in the South China Sea including the legality of China's claimed Nine-dash line.

The Law of Arbitration sets out the South African common law, legislation and case law applicable to each stage of the arbitration cycle, including the arbitration agreement, the staying of court proceedings, the appointment of and challenges to the arbitrators, the pleadings and arbitration proceedings, the arbitration award and court intervention. A brief overview of alternative dispute resolution approaches and the different forms of arbitration is provided as a contextual introduction. The book draws extensively from the UNCITRAL Model Arbitration Law (MAL) and from international case law. There has been almost universal adoption of arbitration as the preferred dispute resolution mechanism for international contracts and rapid convergence of the international law of arbitration, as many countries have adopted the Model Law either in full or in part. Important local and international arbitration legislation and texts are included as appendices.

institutions position India ' s vibrant system once more at the forefront of international commercial dispute resolution. In this handbook, over forty members of the international arbitration community in India and beyond offer authoritative perspectives and insights into topics on arbitration that matter in India. International arbitration practitioners, Indian practitioners, and scholars have combined efforts to produce a practical and informative guide on the subject. Among numerous notable features, the contributors provide detailed analysis and description of such aspects of arbitration as the following, with a focus on the Indian context: Indian application of the 1958 New York Convention; law governing the merits of the dispute and awards; investor-state dispute settlement; drafting arbitration clauses for India-centric agreements; managing costs and time; rise of virtual arbitration and technology; effect of public policy in light of extensive Indian jurisprudence; and arbitration of claims relating to environmental damage. Practical features include checklists for drafting arbitration clauses and a comparative chart of major commercial arbitration rules applicable to India. Also included is a comparative analysis of arbitral regimes in India, Singapore and England; chapters on the India Model Bilateral Investment Treaty and ISDS reforms; a special section on the enforcement of foreign awards; a section on the drafting of the award guided by leading arbitrators and stakeholders and a review of the new 2021 ICC Rules. For foreign counsel and arbitrators with arbitrations in India, this complete and up-to-date analysis provides guidelines for practitioners, corporate counsel, and judges on considerations to be borne in mind with respect to arbitration with an Indian nexus and whilst seeking enforcement and execution of an arbitral award in India. It will prove an effective tool for students and others in understanding and navigating the particularities and peculiarities of India ' s system of domestic and international commercial arbitration.

The Law and Practice of Arbitration is a comprehensive treatise

about the development and practice of arbitration law in the United States. It addresses in detail the recourse to arbitration in domestic matters -- employment, labor, consumer transactions, and business -- and its use in the resolution of international commercial claims. It covers all of the major subject areas in the field and provides practical advice as well as an easy-to-read, clear discussion of the relevant case law. It represents a masterful synthesis of the entire body of arbitration law. It discusses basic concepts and doctrines, the FAA, freedom of contract in arbitration, arbitrability, the enforcement of awards, the use of arbitration in consumer and employment matters, institutional arbitration, and the drafting of arbitration agreements. It speaks of the federalization of the law and growing judicial objections to the use of adhesionsary arbitration agreements in the consumer context, The volume represents the author's continuing in-depth reflection on the practical and systemic consequences of United States Supreme Court's decisional law on arbitration -- a process that is instrumental to the operation of the United States legal system as well as international business. The work continues its tradition of being the best statement on U.S. arbitration law and practice. The Law and Practice of Arbitration is a handy reference for all who have an interest in arbitration law and practice. The new Fifth Edition of Carbonneau ' s treatise is built upon a comprehensive update of the federal circuit and U.S. Supreme Court cases on arbitration. The Introduction has been rewritten to take into account AT & T Mobility v. Concepcion and the American Express Merchants ' Litigation in the development of U.S. arbitration law. These decisions represent landmark USSC pronouncements on adhesive arbitration. The Introduction also contains a new section on the foundational legitimacy of arbitration in the U.S. legal system. The two landmark decisions are also incorporated into the text of Chapter 8 on the topic of adhesive arbitration. Chapter 9 on the award enforcement assesses the standing of Stolt-Nielsen in light of the Court ' s recent decision in Sutter, asking whether this re-evaluation might be a de facto

reversal of the earlier and highly unusual opinion. The assessment takes into account Justice Alito ' s concurring opinion in Sutter. Chapter 10 on International Commercial Arbitration has undergone substantial rewriting and makes its various points more lucidly and effectively. This is also true of chapters 2, 3, and 5. Many footnotes have been perfected in form and content. The per curiam opinions---KPMG LLP v. Cocchi, Marmet Health Care v. Brown, and Nitro-Lift v. Howard---are all integrated into the text and fully assessed. The USSC ' s decision in CompuCredit v. Greenwood is evaluated for its significance on the issue of Congressional intent to preclude arbitration. There are updates on how the courts define arbitration, the waiver of the right to arbitrate (in particular, the Ninth Circuit opinion in Richards v. Ernst & Young), the enforcement of arbitration agreement, with emphasis upon the curious Third Circuit decision on the matter in Guidotti, the latest adherents to the ill-conceived RUAA, the Ninth Circuit ' s favorable response to AT&T Mobilty in Mortensen and Murphy, and an assessment of recent developments on the judicial imposition of penalties for frivolous vacatur actions. The treatise continues to be a highly contemporary and complete statement on the law of arbitration.

With an overburdened and cumbersome system of court litigation, arbitration is becoming an increasingly attractive means of settling disputes. Government enforcement of arbitration agreements and awards is, however, rife with tensions. Among them are tensions between freedom of contract and the need to protect the weak or ill-informed, between the protections of judicial process and the efficiency and responsiveness of more informal justice, between the federal government and the states. Macneil examines the history of the American arbitration law that deals with these and other tensions. He analyzes the personalities and forces that animated the

passing of the United States Arbitration Act of 1925, and its later revolutionizing by the Supreme Court. Macneil also discusses how distorted perceptions of arbitration history in turn distort current law.

It is sure to be highly valued and used by lawyers, arbitrators, and academics concerned with alternative dispute resolution, as well as by arbitration institutions, companies, states, and individuals engaged in arbitration.
