Paperback 428 pages Co-authored with Todd Epstein and Robert W. Dilts Thomas Edison said that the process of invention is 1% inspiration and 99% perspiration. The implication of this statement is that most creative activity is in fact an incremental process that has a structure and requires organization and constant effort to maintain. In many ways, however, creativity has remained elusive!a

Every business plan, campaign, or project comes down to Tactics, Tools, and Strategies (hence the subtitle of my book). To conceive, develop, and implement a sound social media marketing strategic ...

Tactics, Tools & Strategies | Five Steps to Implementation

I use it for everything, including writing (both technical and fiction), running virtual machines, accessing cloud-based tools, recording music, watching shows. It is undoubtedly the most critical tool I have. Joachim Haller, Senior Project Manager, Capgemini. When I was working in Bangkok, my time management tool of choice was the sun.

The purpose of this book is to examine the structure and principles of creativity in order to enhance and supplement the creativity and productivity of individuals, teams and organizations. It applies Neuro-Linguistic Programming to make explicit the strategies and steps involved in the creative process on a number of different levels.

A book by Robert Dilts and Robert McDonald, Tools of the Spirit (1997) encompasses their approach to integrating basic NLP skills and tools with higher levels of experience. 'Tools' of the Spirit are aids which bring us more in harmony and alignment with the "larger Mind" and "larger nervous system" of which we are members.

BELIEFS are the foundation of everyone's personal outcomes.This second edition of Beliefs: Pathways to Health & Well-Being includes new and updated material and offers leading edge technologies that rapidly and effectively identify and remodel limiting beliefs.It teaches you powerful processes for change and demonstrates how to identify and change beliefs using scripts from personal change work undertaken with individuals in workshops. These processes include reprogramming, conflict integration, belief/reality strategies, visualization and criteria identification.You will learn the latest methods to change beliefs which support unhealthy habits such as smoking, overeating and drug use; change the thinking processes that create phobias and unreasonable fears; retrain your immune system to eliminate allergies and deal optimally with cancer, AIDS and other diseases; and learn strategies to transform "unhealthy" beliefs into lifelong constructs of wellness.

Stephen Gilligan and Robert Dilts truly take you on a voyage of self-discovery. The Hero's Journey examines the questions: How can you live a meaningful life? What is the deepest life you are called to, and how can you respond to that call? It is about how to discover your calling and how to embark on the path of learning and transformation that will reconnect you with your spirit,change negative beliefs and habits, heal emotional wounds and physical symptoms, deepen intimacy, and improve self-image and self-love. Along this path we inevitably meet challenges and confronting these challenges forces us to develop and think in new ways and push us outside our comfort zone. The book takes the form of a transcript of a four day workshop conducted by Stephen and Robert. It is a powerful way of learning as you are so absorbed by the experiences of the participants that you feel you are actually there. A wonderful voyage of discovery for everyone who thinks that, "there must be more to life than this".

Dynamic Learning is about a revolutionary new approach to learning and teaching. The authors present leading edge methods and techniques that improve the ability to learn in a variety of areas, offering stimulating exercises and step-by-step procedures that help you to make better use of the most valuable resource you have-your brain.

The strategy tools you need for your business to succeed! Let Key Strategy Tools be your guide to developing a winning strategy for your firm. Cherry-pick the most useful approaches for your business and create a robust strategy that withstands investor scrutiny and becomes your roadmap to success. Covering 88 tools and framed within an innovative strategy development process, the Strategy Pyramid, this user-friendly manual takes you through each step of the process. Whether analysing your market, building competitive advantage or addressing risk and opportunity, you'll find the strategic thinking tools you need at every stage in your strategy development. Following in the footsteps of the hugely successful Key Management Models and Key Performance Indicators, this book delivers professional-level information in the practical and accessible framework synonymous with the Key series.

We are resilience. We are hope. We are dreamers. Yuyi Morales brought her hopes, her passion, her strength, and her stories with her, when she came to the United States in 1994 with her infant son. She left behind nearly everything she owned, but she didn't come empty-handed. Dreamers is a celebration of making your home with the things you always carry: your resilience, your dreams, your hopes and history. It's the story of finding your way in a new place, of navigating an unfamiliar world and finding the best parts of it. In dark times, it's a promise that you can make better tomorrows. This lovingly-illustrated picture book memoir looks at the myriad gifts migrants bring with them when they leave their homes. It's a story about family. And it's a story to remind us that we are all dreamers, bringing our own strengths wherever we roam. Beautiful and powerful at any time but given particular urgency as the status of our own Dreamers becomes uncertain, this is a story that is both topical and timeless. The lyrical text is complemented by sumptuously detailed illustrations, rich in symbolism. Also included are a brief autobiographical essay about Yuyi's own experience, a list of books that inspired her (and still do), and a description of the beautiful images, textures, and mementos she used to create this book. A parallel Spanish-language edition, Soñadores, is also available. Winner of the Pura Belpré Illustrator Award! Teachers as Allies provides educators with the information and tools they need to involve immigrant students and their American-born siblings and peers in inclusive and transformative classroom experiences. The authors offer teaching strategies that address the needs of DREAMers and undocumented youth and include a broad range of curriculum connections and resources. Contributors include Theresa Austin, Aurora Chang, Sylvia Y. Sánchez, Gertrude Tinker Sachs, Eva K. Thorp, Emma Violand-Sánchez, and DREAMers Hareth Andrade-Ayala, Gaby Pacheco, and Rodrigo Velasquez-Soto Royalties from the sale of this book will go to United We Dream. |Teachers are uniquely placed to support undocumented students facing adverse circumstances and to challenge the narrative of immigrant criminality in the public sphere. This book should help enable them to do both. |From the Foreword by Aviva Chomsky, Salem State University |This powerful book provides information, strategies, stories, hope, and sustenance for teachers and other educators working to support some of the most marginalized students in our schools. |Sonia Nieto, professor emerita, University of Massachusetts, Amherst |In light of the current political climate, it is crucial that this information be available for educators and the community. |Stewart Kwoh, president and executive director, Asian Americans Advancing Justice, Los Angeles

Modeling is the process of taking a complex event or phenomenon and breaking it into small enough chunks so that it can be recapitulated or applied in some way. Behavioral modeling involves observing and mapping the successful processes which underlie an exceptional performance of some type. The purpose of behavior modeling is to create a pragmatic map or "model" of a particular behavior which can be used to reproduce or simulate some aspect of that performance by anyone who is motivated to do so.The ability to model effectively opens the door to many possibilities that have previously been unavailable to humankind. In addition to providing a methodology which can be used to make ideas more explicit and easier to communicate, modeling can transform the way we view and perceive one another. If we see someone who does something better than ourselves, for example, instead of looking at that person and feeling inadequate, jealous, or suspicious, we can go out and model how they do what they do. The field of Neuro-Linguistic Programming (NLP) has developed out of the modeling of the behaviors and thinking processes of exceptional people from many fields. In fact, the worldwide success of NLP as a technology for creating and managing change comes from its foundation in the modeling process.This book is about the NLP modeling process and its applications. The first part of this book is devoted to defining the principles and tools necessary for effective modeling (the "epistemology," methodology and technology of NLP). The second part of the book illustrates the application of NLP modeling procedures to the study of effective leadership. It provides examples of how NLP was applied to identify specific cognitive, linguistic and behavioral skills used by leaders to address challenging situations involving problem solving, delegation and training on the job. The results define the key communication and relational skills employed by effective leaders to achieve practical results in their working reality, in order to "create a world to which people want to belong."
